TRINITY INVENTORY MANAGEMENT

Listen • Define • Deliver

Seamless Link Between Customer and Supplier

Utilizing industry leading technology, Trinity improves the flow of your products, services, and information across all levels of the supply chain, resulting in excellence in operations.

Trinity uses the powerful Oracle® eBusiness Suite to achieve lean procurement and demand driven Vendor Management Inventory (VMI). Our solution provides real-time information, and supply chain exception-based alerts to manage an effective VMI process.

Trinity's Engineering Technical Services team performs the print and specification review to ensure manufacturability and identify issues prior to implementation.

Certification and testing services are available. Complete chemical, physical and manufacturer's test reports, along with Production Part Approval Process (PPAP), and Initial Sample Inspection Report (ISIR) are available.

Schedule a FREE consultation today by contacting Trinity Inventory Management:

Quality Policy: Trinity is committed to meet or exceed customer expectations through continuous improvement. Every employee of Trinity is important to and responsible for product quality and improving customer service satisfaction.

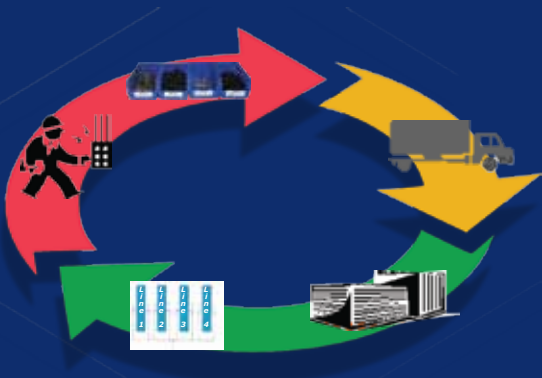

Trinity operates a management system that complies with the ISO 9001:2008 standard and holds certificate number FS 540754.

FOCUSED ON YOUR SUCCESS

Trinity specializes in the supply of standard and custom components through catalog distribution, customized inventory management programs and product delivery services.

Trinity Inventory Management is part of the Trinity family of services that specializes in customized inventory management programs for your C and D class components.

Our ISO certified programs are tailor made to fit your need, improve your bottom line and increase your overall production.

TRINITY INVENTORY MANAGEMENT

Listen • Define • Deliver

Providing you with a full suite of inventory management programs.

LINEBACKER

Multi-bin kanban process

Trinity's Linebacker Program utilizes a multi-bin kanban process that enables your assembly lines to run smoother and more cost-effectively.

- Pre-panned products are delivered directly to a given line or support location.
- A pre-determined schedule providing you a **single source supplier** for all types of fasteners, hydraulic fittings, hoses and more.

KANBAN SELECT

Consignment Program

Never be overstocked or out of stock again. Trinity will take the hassle out of managing consignment inventory with Kanban Select.

- Ensure a seamless transition from your consigned material to Trinity owned material or from one supplier to another as needed.
- Manage the delivery scheduling from your suppliers.
- Receive and store your products and then deliver to you or direct ship to your customers .

SCAN SWIFT

Self-Directed Inventory

This automated turnkey system will streamline your inventory process:

- Puts YOU in control of **what** is ordered and **when** it is ordered.
- Makes your ordering system **quick** and **efficient**.
- Can be customized to have a knowledgeable Trinity professional visit your site to replenish and reorder hardware **saving you time** and **money**.
