Hex Weld Nuts- Piloted- 6 Projection- Prevailing Torque
Steel  Plain Finish

These nuts are used for positioning in pierced or drilled holes, the pilot guides the nut and reduces the likelihood of threads being subjected to welding spatter.

### Weld Nuts- Single Projection Tab
Low Carbon Steel - C1010 High Welding Quality  Plain Finish

This weld nut is a spotweld, precision–pilot nut which features an optimum welding tab. This tab will take several sizes of electrodes and permits use of the same equipment, settings and electrodes used to produce your product or product components. Where the nut is to function as a stiffener or brace in addition to being a fastener, this weld nut is ideal.
